Port Charlotte Evolution PC5

- Schotland

Port Charlotte islay single malt whisky has been produced at bruichladdich distillery by master distiller jim mcewan in homage to the exceptional single malt produced in the village of port charlotte until 1929.

This was the very first pc release, the very first step on the ?walk of life', as jim puts it, for this bold young ileach. the beginning of a new dynasty. heavily peated and unmistakably islay, this cask strength bottling of only 6038 bottles was a milestone in our progress as a distillery, and is much cherished.
